

We could go on and on... about the benefits
Fi-Soft Merchant Edition software provides
when processing payments within QuickBooks®.

***But, we decided our clients
say it best...***

Cole Industries
Akron, OH

I just wanted to take a moment to thank you for all your help when my computer was compromised. Because we were using Fi-Soft Merchant Edition software, we were saved from having our client's payment data stolen.

We love the fact that your PayGuard® technology eliminated the need for us to store sensitive payment data in our QuickBooks® file. Without it, our client's payment data would have been compromised, and we would have lost their trust. Knowing that our company and our clients were protected was such a great relief.

Thank you again. We will definitely pass the word along to other companies that Fi-Soft® and PayGuard® work to protect all.

Theresa Shipp
Accounting Manager

PearlBrite Professional Teeth Whitening
Fort Lauderdale, FL

In my time here, we have upgraded our QuickBooks® program to integrate Fi-Soft's Merchant Edition software to increase productivity and security. I had no idea at the time we purchased the service that Fi-Soft's software would have saved me so much time and money.

Our company and our clients also feel far more secure knowing that we use Fi-Soft's PayGuard® technology. With PayGuard® we no longer store client's credit card numbers, but can still process payments securely and efficiently from within QuickBooks®.

When we got in touch with Fi-Soft, they immediately made our business a priority. We were treated professionally from start to finish, and that level of customer service has only increased in the time that we have been a client of Fi-Soft.

The installation process was fast, accurate, and easy because Fi-Soft did all the work for us. I was shown how to make the most from the software right away, and all of my questions were answered in a prompt, full, and professional fashion from a staff that is knowledgeable and courteous.

Fi-Soft has earned five stars from PearlBrite for their products and service. Thanks for everything!

Gabriel D'Amato
Customer Account Manager

***Stop storing payment data.
Protect your company and clients with
Fi-Soft Merchant Edition Software.***

Commerce. Anywhere.™

Concerned about the liability and complex PCI requirements for storing credit card data? Then use Fi-Soft's Merchant Edition software with PayGuard® technology and eliminate the need to store sensitive payment data.

Designed by an Intuit Solution Provider® and Advanced Certified QuickBooks ProAdvisor®, Fi-Soft Merchant Edition software provides simple, secure, and seamless integration with your QuickBooks® accounting software.

Here are just a few of the benefits you'll receive by using Fi-Soft Merchant Edition software:

- Freedom to select your own merchant account provider,¹
- Eliminates storing sensitive credit card data, significantly reducing your PCI compliance requirements.
- Fi-Soft Merchant Edition software has been independently certified as compliant with PA-DSS security requirements for payment applications.
- PayGuard® allows you to securely choose from multiple customer payment accounts.
- Operates directly from within QuickBooks® with the following key features:
 - Process invoices, sales receipts, refunds, and voids.
 - Reconciliation feature² helps automate month end work to save you time and money.
 - Process large "Batches" or recurring invoices in QuickBooks® from a single screen.
 - Process e-check transactions³ in addition to credit cards.
- Build an integrated payment solution for your business with add-on modules⁴ for Fi-Soft Merchant Edition software:
 - Email Payments - Send invoices by email with an embedded payment link. Payments download into QuickBooks®
 - Online Payments - Allow your customers to make payments on a web page branded with your logo. Payments download into QuickBooks®
 - Mobile Payments - Use your windows mobile 6.0 or higher smart phone/pda to process payments in the field. Payments download into QuickBooks®

Let Fi-Soft show you how to stop storing sensitive credit card data and easily integrate your payment needs with QuickBooks®. Contact us today for a free demo.

Commerce. Anywhere.™

1. Fi-Soft Merchant Edition software is compatible with most major merchant account providers. Contact Fi-Soft to check compatibility with your merchant account provider.
2. Reconciliation features and functionality vary by provider and may not be available for all providers.
3. E-check transactions require a separate, Fi-Soft compatible e-check account. Additional account and transactions fees may apply. Contact your merchant account or e-check provider for details.
4. Add-on modules must be purchased separately. Contact Fi-Soft for current pricing and details.
